Sample News OSTAD Headline orders partial embassy

Marayan Tong, Bandarban

Marayan Tong is the name of a hill belonging to the Marinja Range. This hilltop in Bandarban's Alikadam area is extremely popular for camping among the nature lovers. From the peak as far as the eyes can travel, there are only hills covered in lush green. And in the morning, there are faraway hills covered in sheer clouds to be amazed at. It's an extraordinary experience to enjoy sunrise from up there. As soon as the sun rises, the whole valley gets flooded with its golden rays. And as the hour passes away, the natural beauty of the hill keeps changing constantly throughout the day.

Char Kukri-Mukri, Bhola

Though its called a char (shoal), Kukri-Mukri is an island actually. This island from Bhola's Char Fashion is located at the confluence of Meghna and Tentulia rivers right on the edge of the Bay of Bengal. Seeing the dense forest and the crowd of mangrove trees in Char Kukri-Mukri, you would get the feeling of being deep inside the Sundarbans. The forest and the surrounding waters easily make you forget the complexity of the urban life. And you can spend hours looking at the star-studded sky in the silence of the night.
